

# Scientific program

## Thursday

15.00-15.10 Opening of OKV35 by Yngve Stenstrøm

Chair: Professor Anne Fiksdahl (NTNU)

15.10-16.10 **Invited Lecture IL-1**

Berit Olofsson (SU)

*Metal-Free Transformations with Hypervalent Iodine Reagents & Applications in the Synthesis of Natural Products*

16.10-16.40 Coffee/Exhibition/Posters (odd numbers presenting)

Chair: Bengt E. Haug (UiB)

16.40-17.00 **L-1** Marius Aursnes (UiO)

*Preparation of Z-olefins using in situ generated zinc acetylides and organoboranes*

17.00-17.20 **L-2** Aya Ismael (UiT)

*Carbonylative Couplings in Renewable and Common Solvents*

17.20-17.40 **L-3** Katja S. Håheim (UiS)

*Synthesis of Isocryptolepine and Regioisomers*

17.40-18.00 **L-4** Simen G. Antonsen (NMBU)

*Synthesis of Nitramines and Atmospheric Chemistry*

18.00-18.20 Coffee/Exhibition/Posters (even numbers presenting)

Chair: Magne O. Sydnes (UiS)

18.20-18.40 **L-5** Knut Tormodsønn Hylland (UiO)

*The synthesis of functionalized mono-, di- and polyanilines utilizing an ortho-nitro substituted boronic acid in the Suzuki-Miyaura cross coupling with ortho-bromoanilines*

18.40-19.00 **L-6** Alan Vanderkooy (UU)

*Helices Loaded with Reactive Iodonium Cations*

19.00-19.20 **L-7** Andrew Mansfield (Syrris)

*Taming hazardous reactions under Continuous Flow conditions*

19.20-19.40 **L-8** Mikael Friberg (Merck)

*Ketosufloxonium ylides as starting materials for the synthesis of heterocycles*

20.00 Dinner
